**Modern
Classic**

When used right, an exceptional white can act as a bridge between modern and traditional elements in a room. Here, walls painted in Winter Snow work as well with the folk art-inspired **Painted Pieced Woodwork** as they do with the vibrant tone of our more contemporary **Morrow Chairs**. And because the balance is harmonious, the rustic quality of our **Chandler Dining Table** and the loft style of our **Edison Chandelier** are equally at home.

**Rich
History**

Every home should tell a story. Create yours by pulling together an eclectic display of beloved photos preserved in a mix of frames. Walls painted in Texas Leather set a warm backdrop to a story that's rich with meaning. Our **Gallery Frames** in a variety of finishes from black and white to lacquered gray come together to create a classic and balanced composition. Hang our hammered-metal **Nash Pendant** to illuminate your family gallery.
